SUMMARY

Computer Engineer who builds secure, production-style applications end to end — Spring Boot, Spring MVC and Spring Security on the backend, React and Bootstrap on the front end, tied together with clean REST APIs and Hibernate/JPA data access. Comfortable owning the full delivery pipeline: Git for version control, Maven for builds, Jenkins for CI/CD, Docker for containerization, and Postman for API testing — deployed and run on AWS (EC2, S3) and Linux. Adaptive person who picks up new stacks quickly and enjoys turning ideas into working software.

TECHNICAL SKILLS

- **Languages:** Java (Core Java), JavaScript, SQL
- **Frameworks:** Spring Boot, Spring MVC, Spring Security, Hibernate/JPA, React, Bootstrap
- **Backend Concepts:** RESTful Web Services, JWT Authentication, Caffeine Cache, Multi-threading, Batch Processing
- **Databases:** MySQL, Oracle, MongoDB
- **DevOps & Tools:** Git, Docker, Jenkins, Maven, Postman, AWS (EC2, S3), Linux

PROFESSIONAL EXPERIENCE

- **AutomizePlus Software** Gandhidham, India
Jan 2026 – May 2026
Full Stack Java Developer Intern
 - **Backend Development:** Contributed to backend feature development using **Java** and **Spring Boot**, building and testing **REST API** endpoints under the guidance of senior developers.
 - **API Testing:** Used **Postman** to test API endpoints and verify request/response behavior during development.
 - **Database Work:** Worked with **MySQL** for data storage, writing queries to support application features.
 - **Debugging:** Investigated and resolved issues in existing modules, gaining exposure to how a production-style **Spring Boot** application is structured and maintained.
- **BrainyBeam Info-Tech Pvt. Ltd** Ahmedabad, India
June 2025 – July 2025
MERN Stack Intern
 - **Frontend Development:** Built responsive front-end pages using **React** and **Bootstrap** based on provided design mockups.
 - **Component Architecture:** Worked with component-based architecture in **React**, managing state and props across reusable UI elements.
 - **API Integration:** Connected front-end components to a **Node.js/Express** backend to fetch and display data via REST APIs.
 - **Database Exposure:** Used **MongoDB** to understand basic data storage and retrieval in a MERN application.
 - **Version Control:** Used **Git** for version control while collaborating with the team during the internship.

PROJECTS

- **CRM Application – Microservices Architecture** | Java, Spring Boot
 - **Microservices Design:** Built a multi-service CRM system in **Java 8** and **Spring Boot 2.7**, splitting functionality across 10+ independently deployable services (auth, customer, sales, marketing, support, analytics, workflow).
 - **Service Discovery & Routing:** Configured **Netflix Eureka** for service registration and **Spring Cloud Gateway** as a single-entry point for routing across services.
 - **Inter-Service Communication:** Used **OpenFeign** for service-to-service calls in a distributed architecture.
 - **Database-per-Service:** Designed a **MySQL** database-per-service pattern, with a **React + Vite + TailwindCSS** frontend consuming the APIs.
- **SplitApp – Group Expense Splitting App** | MERN Stack
 - **Full-Stack Development:** Built a Splitwise-style group expense splitting app using **React**, **Express**, and **MongoDB**, with **Redux** for centralized state management.
 - **Authentication & Security:** Implemented user registration and login with **JWT**-based authentication and **bcryptjs** for password encryption.
 - **API Integration:** Used **Axios** for frontend-backend communication and **Mongoose** to model and query group/expense data in **MongoDB Atlas**.
 - **UI Development:** Designed the interface with **Material UI**, supporting multi-user groups and balance settlement between members.

EDUCATION

- **Gandhinagar University** Gandhinagar
Sep 2023 – May 2026
B.Tech in Computer Engineering; CPI: 7.98/10
- **Tolani FG Polytechnic** Gandhidham
Nov 2020 – Aug 2023
Diploma in Computer Engineering; CGPA: 7.64/10

COURSES

- **Java Spring Framework 6 with Spring Boot 3**
- **The Complete Jenkins DevOps CI/CD Bootcamp**
- **AWS Cloud Fundamentals**
